

Arizona AFL-CIO Announces the 2008 Primary Endorsements

Rebekah Friend, Executive Director of the Arizona AFL-CIO stated, *"It is a pleasure to endorse candidates of this caliber. These candidates share our vision of what is important to Arizona's working families. These candidates support the issues that Arizona's unions fight for everyday. Issues such as the Workers Right to Join a Union, access to affordable healthcare, and a stable and improved economy, and quality education."* Friend concluded, *"There are many issues on the table that impact working families, and it is crucial for the future of Arizona that we elect those who are going to step up to the plate and fight for the issues that will move Arizona forward. We're convinced that these candidates will do just that. We intend to put substantial resources forward to educate union members and their families on the views of our endorsed candidates and then ensure their successful election."*
